# Management Console

## Print Infrastructure Management Solution

### Scalability. Reliability. Real-time communications. Productivity. Network efficiency.

Canon's iW Management Console puts you in control of your printing infrastructure, optimizing IT efficiency and reducing the total cost of ownership across the entire organization. Our unified print and device management software solution is infused with the latest innovations to make network device management and control – as well as your job – easier than ever.

### Business Can be simple

### Managing devices across your organization

### **Device Monitoring**

- Instant e-mail notification regarding MFP and printer errors / Real time device status.
- Support for Non-Canon devices for device monitoring and error alerts.

### **Device Settings**

- Retrieval and delivery of device settings such as IP Address, device location, system manager, and DNS Server.
- The ability to reboot a single device or a group of devices address.

### **Centralized Device Management**

- One Utility to manage all your networked devices remotely via a web browser.
- Auto Discovery allows discovery of new and un-configured devices.
- Logical grouping feature allows easy organization of all devices.
- Advanced Filters for finding information regarding easily.

### Automated task and expand your control

### **Customise User Access Privileges**

Closely manage and modify accessible features and capabilities

by individual user or groups. iW Management Console supports the Active Directory domain environment for easy user management.

#### Manage Users and Devices in Groups

Simplify updates and changes to device settings by creating groups to execute tasks targeted at multiple users and/or devices simultaneously with a single command. iW Management Console supports the Active Directory domain environment for easy user management.

#### Address Book Management Plug-in

Create or retrieve address books from Canon networked devices, and then edit, save, and redeliver comprehensive, identical address books to all iR devices in a single task.

#### Usage Logs Trace System Activity

IT administrators can review and export system logs for a history of all tasks and activities executed by the iW Management Console server.
