

# Readiris™ Corporate 16

---

## Convert and edit your documents instantly.

Readiris™ Corporate 16 is the business-centric version of IRIS' flagship OCR software. It was made to help SMBs and larger companies process information contained in paper and digital documents efficiently in order to share them within their organization and network.

### Key features

- Convert batches of documents, images or PDF files into editable documents including searchable PDFs
- Automate your recognition process thanks to watched folders
- Compress searchable PDF files up to 50 times for optimized archiving and sharing
- Create, edit and merge multipage PDF files
- Sign and secure your PDF files
- Back-up your documents in the Cloud including in professional applications such as SharePoint and Therefore
- Sort your files using document separation tools and barcodes
- Access your smart documents from any computer, smartphone or tablet

### Quick reference guide

Product name	Readiris™ Corporate 16
SKU - 1 licence	458893
SKU - SMB - 3 licences	458894
Interface languages	English, Spanish, French, Russian, Simplified Chinese, Traditional Chinese, Korean, Japanese, Italian, Polish, Dutch, German, Arabic, Danish, Finnish, Hungarian, Norwegian, Portuguese PT, Portuguese BR, Romanian, Swedish, Ukrainian, Bulgarian, Catalan, Czech, Greek, Hebrew, Turkish.
Supported OCR languages	137 (complete list at <a href="http://www.irislink.com">www.irislink.com</a> )

## Key benefits

- **Process batches of documents** and reduce document processing times by splitting tasks over a multi-core workflow
- **Sort your files using document separation tools and barcodes**  
Add a separator like a blank page or a barcode between each document to tell the OCR software to create different output files from a single batch of documents.
- **Use watched folders to automate your workflow**  
Readiris™ Corporate 16 can monitor specific folders on a local drive, network or FTP server and automatically process any document placed in this specific location.
- **Connect to SharePoint, Therefore or FTP**  
Process documents directly into a network folder using an FTP connection or export them to the company's intranet DMS such as SharePoint® or Therefore™ using Readiris™ 16's built-in DMS connectors.
- **Index your documents**  
If you are using a document management system that handles index fields, you can either use Readiris™ Corporate 16 to fill them out using "Drag and drop OCR" or request an XML index file that contains detailed information about the processed document.
- **Sign your PDF files digitally**  
The PDF documents you generate with Readiris™ can be signed digitally. A digital signature identifies the person who created the PDF document; it authenticates the identity of the author, certifies a document and helps prevent unwanted changes to the PDF document.
- **Compress your documents for optimized archiving**  
Use IRIS' patented hyper-compression technology (iHQC) to create PDF files up to 50 times smaller than their original size.
- **Extended support of PDF formats**  
Readiris™ Corporate 16 features an extended set of PDF creation tools including the support of PDF/A, Text-PDF, Text-image and PDF iHQC Level 2 & 3 for even lighter files.
- **Scan with MFPs and professional scanners**  
For small and medium businesses using multi-sheet feed scanners, MFPs or professional scanners, Readiris™ Corporate 16 is a first-class solution to handle the processing of incoming documents.

## Minimum computer requirements

### For Windows®

- 1 GHz processor or more (multi-core processor recommended)
- Microsoft® Windows® 10, 8, 7, Vista® or XP (32 or 64 bit)
- 1GB RAM (2GB recommended)
- 400MB of available hard disk space
- Internet connection for software download and activation

# Readiris™ Pro 16

---

## Convert and edit your documents instantly.

Readiris™ Pro 16 is a powerful OCR solution designed for private users and self-employed workers. Use IRIS' world-reknowned OCR software to save the precious time you would lose retyping information from documents! Readiris™ Pro 16 automatically recognizes the text and layout from an image, a PDF or a scanned document and turns it into an editable digital file (Word, Excel, PDF, HTML, TXT, ePub, etc.). Readiris™ Pro 16 also converts your MS Office files (Word, Excel, PowerPoint) into PDF files. To convert, simply right-click on your file and get the result instantly!

### Key features

- Convert scans, images and PDF files into editable documents
- Create, edit and merge multipage PDF files
- Compress searchable PDF files up to 10 times for optimized archiving and sharing
- Store and manage your converted files directly in the Cloud
